Ted Turner, owner of the Superstation TV out of Atlanta, Georgia, has never been known to do things like everyone else does them. Now that he has lost his bid to take over one of the larger television networks, Turner has announced plans to acquire MGM - UA. That is one of the old-line moviemakers in Hollywood and the going price was a piddling 1.5 B-I-L-L-I-O-N. While the experts ponder his ability to come up with that much cash, we anticipate he will make it. We heard the same bunch of experts predict he would fall flat on his face when he launched the worldwide news network called Cable News Network (CNN), but he is still going. Instead of predicting problems for Turner, we would all probably be smart to latch onto his star and go for a ride with him. I don't plan to do so because I Welcomed To Elba am just too conservative in the first place, and don't have the gall to ask someone to loan me that much money either.

The continuing news reports of the elderly man in south Florida who was convicted of killing his wife touch me quite a bit. He did kill her, according to his own statements, and has been convicted of the crime. We have some problem however with the harsh sentence given this man who testified to the suffering both he and his wife were going through due to her failing health, both physically and mentally. It hurts us to see people we know and love (or just respect) as they steadily lose the battle, and couldn't bring ourself to do as this husband has done, but we feel we understand his thinking . . . and it [L-R] - Supt. William Crews, his wife was more than likely done with love, even if it is a bit twisted. It is interesting to note that the couple's only child feels she too understands her father's actions and wants him freed from any jail term.

There is a lot of bad news bouncing around and the plane crash in Japan is no exception. We understand they did find several survivors, but this was still the worst airplane crash in history . . . anywhere in the world. Over 500 people were killed in this crash, including two Americans.

We got a fishing report from a friend (former friend now). It seems he and his grandson went bream fishing this week, were keeping only the big ones, and even then started throwing back their catch after they had more than a mess in the ice box. Now this man has retired, and except for the "honey-do" jobs, has all day long to fish; but it doesn't help me get my work done to hear such success stories.

A new government study predicts gasoline prices will drop another four cents per gallon in 1986. Now we don't know just how accurate and knowledgeable this panel of well-paid experts is, but since a drop in gasoline prices will save us money, we are going to believe it as long as we can.

Union Carbide continues to have trouble. You remember they owned a large percentage of that company in India from which chemicals escaped and are redited with killing over 2,000 people. Now they have had another chemical leak this time in a West Virginia plant and it caused 135 people to be classified as hurt. Thus far we have heard of no deaths, but sometimes a lingering injury can be just as bad.

Tropical storm Danny is moving toward the Florida coast at press time, tracing the 1969 path of Camille. We don't want to hear this type news, but take heart in the fact Danny is not as mean-looking as Camille was at the same stage of development

Richard Shelby is gearing up to run for the U.S. Senate seat now held by Republican Senator Jeremiah Denton from Mobile. Shelby must first get past Secretary of State Don Siegelman who also has dreams of holding the office. Both are loyal Democrats and both are experienced with politicking and with holding public office. Shelby has less statewide exposure, but is working on this problem daily. He has ties in this area as he is married to the former Annette Nevin, daughter of Mr. and Mrs. C.E. Nevin of Kinston High and MacArthur Tech fame. Mrs. Nevin is a native of Elba. Shelby will be in Elba Monday morning breaking bread with friends and other potential

We were asked Monday, "Do you really think Gov. Wallace will run again?" When we answered with a strong yes, our interviewer became defensive and stated that the people of Alabama are ready for a change. We reminded him that he didn't vote for Wallace the last several times around, and then asked for his recommendation of a person to take Wallace's place. He still hasn't named a single possible candidate he thinks can win and whom he could support! It was almost as if he was conceding the race to the governor again.

By, Ricky Mularz, Editor

I went to Tuscaloosa last weekend to umpire in the men's Class D softball tournament and umpired a total of 13 games over a 27-hour span with three hours sleep. I enjoy umpiring and am glad I got to go to Tuscaloosa, but it might take me a week or two to get over the tourney!

While on the subject of umpiring, Bill Bullard (who accompanied me to Tuscaloosa) officially retired Saturday night after calling his last game in the tournament. Bill, who has now retired from all sports officiating, used to umpire ball behind the school all by himself and keep the book at the same time; he is well-known across the state as a top-notch official in every sport. Bill Bullard has done more to help recreation in Elba than anyone I know and he was truly an "umpire's umpire"!

Area high school football teams all strapped on the pads last week and that means it's time to get to work. The weather may be hot, but the players are willling to work and their dedication is to be commended. Just remember to let 'em know you appreciate it when they hit the field on August 30.

Elba's football team is a little short on numbers this season, but Coach Wood is excited by its enthusiasm and attitude, and is optimistic about the upcoming season. The Tigers lost just about the whole team to graduation last season and lost a couple of would-be starters after spring training due to personal reasons. However, Coach Wood's optimism is contagious and I'm already getting fired up. Get ready -- the Tigers will bust loose in just two

As president of the Elba Athletic Club I'd like to urge everyone to join the club during this week's membership drive. You don't have to wonder where your money goes -- every penny goes right back into the school to help finance the total athletic program. C'mon all you Tiger fans -- join the fun!

I got the latest A.H.S.A.A. bulletin this week and it clarified an earlier article by stating that Alabama would NOT use a three-point play in basketball. The bulletin in July explained the rule and everyone thought it would be in effect, but now the answer is "no"

The August bulletin also reported the state basketball tournament would return to Tuscaloosa this year, with all six classes to play at the same site. The tourney will last from February 24 - March 1, and 48 teams will be on splay. It should be quite a week.

#### COLLEGE DAYS

The eighth annual College for Retired Persons will be held Sept. 5 and 6 at ESJC. These two days are packed with fun programs, as well as educational ones.

Registration forms are avialable; many have already been mailed out. If you haven't received a form for registering, call me at 894-5596 and I will see that you get one.

Some of the programs being David Wuentzer; Shopping for the Retired Person", 'Personal Relationships in the Golden Years", by Dr. Donald Crook Jr., and "Fall Fashions by

#### We want you to attend.

THREADING NEEDLES Very often I have a hard time threading needles, especially the machine needle, because there isn't too much hand sewing I do. In my sewing classes, I always show how to cut the end of the thread on a slant This works for me.

Another way would be to apply a bit of hair spray or starch to the end of the thread. This stiffens the thread just enough to ease it through the needle's eve.

#### REMOVING STICKERS

It is often a frustrating chore to remove stickers and labels from household items. Trial and error process is necessary. Of course manufacturers and retailers should use materials that can be easily removed, but they don't.

When you have removed as much of the label as possible and find there is still the adhesive present, try removing as much of the label on tape as possible with your fingernail or a dull edge of a knife. Sometimes adhesive can be

removed with a solution of warm water, liquid detergent, vinegar or ammnonia. Other suggestions include oil, fingernail polish remover and acetone. Depending on the surface, it may be possible to apply a generous amount of a commercial prewash spot remover on the adhesive. Cleaning fluid will remove some ahesives; however, cleaning fluid can also soften some kinds of plastics if left in contact with the plastic surface for a period.

You may have tub appliques which need replacing. Some are easy to remove, others are not. If you would like to know how to remove these appliques, call me and I'll send you the directions.

#### BAKING WITH HONEY

Products made with honey brown faster than foods made with other sweeteners. So when you bake products made with honey, set the oven temperature 25 degrees lower than what is indicated in the recipe.

#### CLEANING VARNISHED SURFACES

Clean and polish with this cleaner: three tablespoons boiled linseed oil, one quart hot water, and one tablespoon mineral spirits of turpentine. Mix ingredients. Dip cloth in mixture and wring out. Wash surface. Wipe dry. Polish with a soft cloth. Project adjacent surfaces from the solution. Caution: Do not heat this mixture -- it is flammable.

#### Renovations Now

#### Complete At County Jail

The renovations at the Coffee County Jail have now been completed and according to county officials the building now meets all requirements mandated in a recent federal court order. The federal order, which affected jails across the state, involved only

minor structural changes at the local jail and the addition of a cell to house female inmates. The addition, which also can be includes a reception area, upped the jail's inmate capacity to 35.

Other changes included hiring additional jailers and cooks, and organizing procedural activity.

Walt Wilkerson Jr., chairman of the Enterprise State Junior College Foundation (standing) and Dr. Joseph Talmadge, ESJC president, accept the letter of authorization for \$100,000 from the Title III Endowment matching grant. ESJC was one of only 34 colleges and universities in the nation to receive this grant. The grant helps to insure a sound financial base for the used to house male inmates and ESJC Foundation in the years ahead and establishes a permanent endowment to finance scholarships for deserving students.
